satisfied that the people in his county did not desire an exemption.

Mr. Bricciand was opposed to the resolution on the same ground. It would bankrupt his his county and ruin many of the outside compilers. He appealed warmly to the Senate to vote his proposition that would ruin any county. He did not think it would have such an effect. He claimed that his resolution was simply to wipe out something that was put into the new Constitution.

Mr. Brits said he would have such an effect. He claimed that his resolution was simply to wipe out something that was put into the new Constitution.

Mr. Bowers said that this talk about voting for the interests of the laboring classes on every measure was being run in the ground. He was a way and bear his share in the expenses.

Mr. Dray believed that there was much injustice in the present system of taxation, and he thought the proposition made here would so that the that his resolution. The property of the country some obtain the property of the country some obtained that the property of the country some obtained that the sunting the friends of the bill, he would support the following a high foundation that the author be permitted to state the bill, he would support the mental subject to the bill, he would support the full say and the following the foundation that the author be permitted to the bill, he would support the full say and the foundation that the author of Scate Bill, No. 3.—To ratify and confirm the wipe out something that was put into the new Constitution.

Mr. Bowers said that this talk about voting for the interests of the laboring classes on every measure was being run in the ground. He should vote against the resolution, because it was contrary to the spirit of our Constitution; to the very principles upon which the Government is founded, that every man, no matter what his business, should stand equal before the law and bear his share in the expenses.

Mr. Dray believed that there was much injustice in the present system of taxation, and he thought the proposition made here would soon obtain. The property of the country should pay all the taxes. He admitted that this was the proposition of that great theorist, Henry George, but it was nevertheless right.

Mr. Meany said it was strange that when a proposition was made to relieve the poor people it was always opposed by large land-owners. He was in favor of the resolution. He would not be afraid to bet that half of the Senators on the floor had not paid their poll tax for the last year. He was always in favor of relieving the poor.

Afternoon Session.

Afternoon Session Senate reassembled at 2 P. M., President protem. White in the chair. QUESTION OF PRIVILEGE.

Mr. Jones rose to a question of privilege, and

Mr. Jones rose to a question of privilege, and said:

In this morning's issue of the Alta California there is an editorial entitled "A Gigantic Steal." referring to Senate Bill No. 46, introduced by Mr. Jones, of Butte, by request, and it says that "there will be some curiosity in this city to know at whose request Mr. Jones was induced to father it in the body of which he became a member." In that respect, Mr. President, I would say that, as Chairman of the Judiciary Committee. I have been in receipt of from two to half a dozen bills every day, bills coming from eminent lawyers in this State, requesting that they be introduced and put before the Judiciary Committee. I have not the time to read these bills, and generally introduce them, and if there is any reason therefor, and I am not certain as to their contents, I introduced them by request, and when I do that, I mean what that term means in this body. I do not know that I shall support any bill that I introduced by request, but I do know that persons who have sent me bills are entitled to the courtesy of having them introduced into this Senate. If they were not I should not have introduced these bills. In this particular case, I beg leave to inform the Alta California, the people of San Francisco, and the people of the State of California, that that bill was brought to my desk, and the statement made to me that Mr. D. M. Delmas, of San Jose, as attorney for the parties who wished it introduced. I immediately introduced it shall have a respectful hearing. If, in my judgment, it is a just bill, I shall certainly vote for it. If I believe it is not, I shall not vote for it, but shall be among the first to condemn it; but as to the other suggestion made by the Alla that I will see the advisability of withdrawing the bill I shall certainly not do so until the persons who are behind it receive the respectful hearing I deem them entitled to as citizens of this Senate.

Examption From Taxation.

EXAMPTION FROM TAXATION.

The Senate resumed consideration of Senate Constitutional Amendment No. 1.

Mr. Goucher withdrew his amendment, saying that upon consideration he was not in favor of it. The adoption of the resolution would cut off too much of the revenues of the counties of Mono, Mariposa and Alpine.

Mr. Caminetti offered a substitute for the entire resolution, changing the last clause so as to read as follows: "Frovided always that wearing apparel, household furniture, the tools and implements of artisans, mechanics and laborers whose entire value does not exceed \$3.00. EXPAPTION FROM TAXATION. value does not exceed \$300 Mr. De Long offered to withdraw his amendment and let Mr. Caminetti's substitute take its

Mr. Caminetti moved to reconsider the vote by which the Senate concurred in the Assembly amendment to Senate Bill No. 1, an Act to provide for the payment of the funeral expenses of the late Governor Washington Bartlett. [The Assembly amendment included some expenses incurred by the National Guard.]

Mr. Caminetti repeated the objections he made before the amendment was concurred in. The amendment, he claimed, did not provide who was to receive the additional \$589. He was assured that the National Guard did not wish to be placed in the position they were by the amendment.

Mr. Jones said that he had found out [since]

Mr. Jones said that he had found out [since] resterday that the leading officers of the National Guard were opposed to the smendment tacked on to the bill in the Assembly, and that it was not done at their request or in accordance with their wishes.

The motion to re-consider prevailed unanimously.

The Senate then refused to concur in the Assembly amendment to the bill by a unanimous vote.

The Secretary was instructed to inform the Assembly that the Senate refused to concur, and ask that body to recede from the amendment.

Mr. Bray was permitted to introduce, out of order, an Act to authorize the payment of claims against the State which were incurred under an Act to promtoe drainage, approved April 23, 1881. Committee on Claims.

Mr. Meany introduced a resolution authorizing the Chairman of the Committee on Claims to appoint a stenographer for that committee. It was referred to the Committee on Attaches. On motion of Mr. Goucher, at 5:10 p. M., the Senate adjourned.

BERTIN, Jappary 24th.-The Color A meeting of the Senate Finance Committee tion—at the city of Santa Clara—where good draining is impossible, the water supply deficient and the amount of land contained in the ficient and the smount of land contained in the site entirely inadequate, have already been set forth in the RECORD-UNION. The msjority of the Board of Trustees urgently favor the removal of the Home to another locality for the reasons stated, while two-Mr. Block and Mr. Widney, who reside in the immediate neighborhood, desire to retain it where it now is. The majority was represented before the committee by Mrs. Ariel Lathrop and Mrs. H. R. Judah, Trustees, and Mr. Ariel Lathrop, Dr. A. E. Osborne, resident physician at the Home: Assemblyman Williams and others.

Messrs. Block and Widney appeared and opposed removal of location, claiming that the n America is, therefore, incomprehensible Bayard has declared that he does not know whether Klein is an American subject, but Messrs. Block and Widney appeared and opposed removal of location, claiming that the land now occupied was high and capable of complete drainage; that present defects therein could be remedied by a few hundred dollars expense; that there was a fail of thirty-four feet to the mile from the building site, or about twenty-two feetin a distance of three-fifths of a mile to where the city saver is resched. The Santa Clara legislative delegation was present during the meeting of the committee and evinced their opposition to a change in location of the Home. It is evident that the people of Santa Clara county fear that if the present site is abandoned the new location may be fixed in some other county and hence the officially condemned premises where the Home now stands, is defended as suitable and satisfactory. tion forbidding any demonstration welcoming O'Brien, but despite this action 20,000 persons gathered around the Court-house. While O'Brien was striving to pass a rough crowd to enter the Court-house, he was seized by a police inspector and dragged thirty yards.

The people were maddened by this and pressed forward to rescue him. The police, however, repelled the crowd.

Timothy Healey, who stepped forward to aid O'Brien, was met by sebayonet leveled at his breast. A number of reporters were maltreated.

The excitement was feverish as O'Brien entered the Court-house. He was greeted with vociferous cheers. factory.

Senator Murphy, who introduced the bill, said he did so at the request of the majority of the Trustees of the Home, and was fully satisfied, from investigation made, that it was the duty of the Legislature to provide the new site and buildings. Mrs. Lathrop and Mrs. Judah took a deep interest in the consideration of the subject, and showed, by frequent interrogations addressed to Messrs. Black and Windey, that the lady members of the Board of Trustees were not only thoroughly conversant and informed upon every detail concerning the Home and its needs, but that their position, upon removal to another site, was in the interests of the immates and to meet present demands of applicants for admission, an absolute necessity. Mrs. Judah said the \$70,000 asked for a new site was the amount that had been estimated by those best competent to judge, as the probable cost of such amount and one was desired. O'Brien complained to the Judge that the police were attempting to incite a bloody riot.

The Court refused to issue the desired subpoenas. The spectators in the Court-room received the decision with murmurs, and the magistrates ordered the galleries cleared. While this was being done O'Brien exclaimed, "Pil clear out also!" and started for the door.

The Magistrates shouted "stop him!" and a consable grabbed O'Brien. After a sharp struggle-O'Brien, with the aid of some of the spectators managed to escape to the street with cost of such amount and quality of land as was needed; but if a suitable location could be purchased for less, of course the balance above the amount -required could remain in the State Treasury. The Court issued a warrant for the arrest of O'Brien, and then adjourned. The police, with fixed bayonets, are patrolling the streets of the town. 108 inmates in the Home, and upwards of 150 applications were now on file for admission, but the parties had to be refused for want of accommodations. A Duel Over Boulanger. David Bush, who has had twenty-five years of experience as a sanitary engineer in the state, and been employed in that capacity in connection with most of the public institutions of California, said that he made a careful investigation of the grounds and buildings of this Home two years ago, and found the grounds so low and so situated that no suitable drainage could be provided. He was unqualified in his opinion that a new location was an absolute necessity and thought the change should be made as early as possible. He further stated that subsequent to his examination of the premises, Colonel Waring, the leading sanitary engineer of the country, made a PARIS, January 24th.—There was a duel to-day between Cornudet, Deputy for the Pepart-ment of the Creuse, and Chabrouillaud, editor of a newspaper. nia common points and points in Utah.
As the result of a meeting of freight agents in Denver, rates for Utah points from Chi-cago and the Missouri river were advanced. This will necessitate a similar advance Governor Waterman appeared, by request, before the commit ee, and stated that he had visited the Home and earefully inspected the grounds and entire premises a few days since. He agreed with all the other withnesses that the management of the Home was most admirable, but he found the drainage fatally defective. The grounds were wet, cold and clammy, and at the rear portion of the premises the stench was fearful, from escaping sewer gas. He found that grapevines upon the place grow spindling, and fruit trees look unhealthy, and many were dying. From his experience in horticulture he attributed this to a lack of proper drainage of the soil. Nothing seemed to do well except eucalyptus trees, and they thrive best in wet ground. He found that there was no fall in the surface of the ground and no opportunity to secure needed from California points. San Francisco merchants, however, still have a decided advantage over those in the East so far as Utah business is concerned. The Southern Pacific Company has always maintained the right to make rates for California lower than those for Missouri river

The new schedule is as follows: First class, \$2°25; second, \$1°85; third, \$1°50; fourth, \$1°30; fifth, \$1°10; A class, \$1°10; B, 85e; C, 77e; D; 65c; E, 56c. The only alteration is in the first two rates, which were formerly \$2 for the first class and \$1 70 for the second. The rates from Kan-sas City or Omaha to Salt Lake City or the ground and no opportunity to secure needed drainage. He regarded it as poor judgment to try to c nime the institution on the present suc, and that a new one should be selected. He advised that a tract of six or eight hundred acres of land be procured at some other place—either in Santa Clara county or elsewhere—and that proper provision be made to take even of Ogden are \$2.50 first class and \$2.15 for second: The new rates apply from California (common points) to all trains from Ogden to Spanish Fork on the lines of

It is not the large number of feeble-minded that are now in the State, and which number will greatly increase with the increase of population.

Dr. W. R. Cluness, of the State Board of Health, said he visited the Home last fall, and with other members of the Board made an official inspection of buildings and grounds. The site he regarded as entirely unsuitable for its present purposes. There was no fall in any direction, and he thought a poorer location for the fully indorsed Colonel Waring's report, and said there was no better sanitary authority in the world than that gentleman. He regarded fifty-one acres as totally inadequate for the purposes of the Home, and only a portion of the Mays and Means Committee of the Assembly, which had been invited to sit with the Senate Finance Committee to hear theftestimony being given. He said important legislative business before the Assembly Committee, from a personal and thorough inspection just made of the greands where the Home was located, had decided that the Present site was ensirely unfit for such purpose, and would unanimously recommend the passage of the bill to appropriate money to purchase of railread policy it is not always wise to purchase big engines. This is 4the decision of some of the Division Snperintendents of the Southern Pacific Company who have been very hard at work since the arrival of the new locomotives in repairing tracks. In several sections of the system the mammoths have played havoc with what was good road before their advent. In places where the rail is light the destruction is most marked. The result is that heavy drafts have recently been reade on the company's stock of reserve rail, and this will delay materially the commencement of work on some of the other branch roads projected.—S. THE ELECTION REFORM BILL.

In about all but the numbering and indorsing of the ballots, the Goucher election bill is to be commended. In other essential features it is wise, and notably so in the matter of recognizing nominees outside of convention and primary methods. In fact it is a direct blow to bossism and convention manipulation, and is therefore movement. But it must be amended in the matters first referred to. These modifications we believe will be made, for it has been demonstrated that with the clerical indorsement on the ballots and the numbering system, the to know. A device can be adopted, and for that matter, a different one for each engraved, that cannot be counterfeitedbecause its key will be unknown even to the artist who makes it, and the election thrown out. Moreover, there will be no and that are mingled with the darkest of incentive for the voter to cast a spurious which the ballot must be procured of the

It is said, however, that the "Tasmania dodge" may be practiced. That is, an unofficial ballot is deposited by a boss servitor who brings out of the booth the official ballot, marks it and delivers it to a purchased voter, who enters the booth and after voting brings back the clean official ballot he received, as proof to the boss that he has "delivered the goods." This clean ballot is then used for another "chattel" for like procedure, and so on indefinitely, The response to this objection is found in what has already been said-let the authority that provides the ballet, be required to adopt a device, the key to the genuineness of which is known only to that authority. Or for that matter there that authority. Or, for that matter, there could be no objection to autographic indorsement of all ballots prior to opening of the polls, and in an exactly designated spot upon the paper. What we do insist upon as dangerous and an invasion of the secrecy of the ballot is the indorsement upon it by a clerk having the means of at the time of the casting. The numbering of the ballots is not only useless, but vicious. Whoever takes the first ballot will be first on the tally list, whoever takes the second ballot will be second on the list and so on to the end, and every voter will be thus indicated by the record. But aside from these things the bill is

a worthy one and means a long step in advance. It will greatly break the power of the "bosses;" let us hope beyond recovery. It will not wholly eliminate them but it will make their bargains to deliver goods so uncertain that the price of votes will decline to ruinously low quotations It gives every man full opportunity to aspire for office and to have his name officially before the electors without salvng the palm of the boss, swearing allegiance to a caucus or tying himself hand and foot in a primary or a convention. While the names of all nominees are to be printed upon one ballot, space after each office title is to be left, that the elector may write in the name of any other person. The ballots are to be bound in stub-books, two hundred to the volume, at 30,000 (and the vote of 6,000 justifies it) and are to be numbered (a provision already condemned), and as voted are to be indersed by the ballot-clerks (the mistake referred to that must be rectified), and these ballot-cierks alone are authorized to furnish the electors their ballots. The voter enters a booth (one for every seventy-five voters being provided) where no one can York. FORY BENTON, January 24th.—A gentleman who has just returned to this city from a business trip to Fort Conrad, in the northern part of the county gives an alarming account of the ness trip to Fort Conrad, in the northern part of the county, gives an alarming account of the ravages of wolves among the stock in that section. They no longer confine their depredations to calves, colts and yearlings, but now attack and destroy full-grown steers. They single out an animal, attacking from every side. They worry and tire him until, being no longer able to defend himself, his enemies hamstring and then finish him. The wolves now run in bands of a dozen or more, and ranchmen are afraid to trayel alone lest they be attacked by them.

The various cold storage companies now springing up over the South and West promise to work wonders in trade and household affairs. The anhydrous am monia, which is their cooling agent, comes from the soft coal used in making gas. It is driven off in process of cooling. It costs nothing but for fixtures to refine and make use of it. A ton of coal yields twenty gallons of ammoniated water, from which the ammonia is separated in vapor, then forced into liquefaction by a pressure of about 120 pounds to the square inch. When allowed to return to gas it takes away the heat of whatever it touches. it can be sent through pipes and come back to be used over and over again, there is little cost to the process.—New York Tele-

LOCAL INTELLIGENCE.

Artillery Band Concerts. The third of the series of concerts by this band will be given on Thursday evening, January 31st, at the Metropolitan Theater. The most interesting programme of any yet given is being arranged, and dethe attractions that will be offered elsewhere on that evening, should draw a good house. Particular attention is called to the engagement for this concert of Herman Brandt, than whom there is no greater artist in the United States; and his reputation is not confined to this country, but extends to the great art centers of Europe.

This will be the first opportunity the Sacramento public has had of hearing him.

W. H. Kinross, musical director of the McNeill Club, is the vocal soloist for the evening, and his well-known ability as a dramatic singer and long experience on the stage, assures us of a treat. His selection is the "Roll Call," by Pissuti, which requires a full military band accompaniment, and the effect is highly dramatic. This is certainly a novelty, and doubtless Mr. Kinross' many friends will avail themselves of hearing him under conditions so favorable upon his first appearance in Sacramento as a soloist.

arranging the ever-popular "Forge in the Forest," to be given with realistic stage effects, and which certainly will interesting feature. The storm is heard-peals of thunder, flashing of lightning. howling and whistling of the wind and falling rain—which gradually passes away, followed by songs of birds heralding the day-break, while the soft tones of the organ announces worship in the chapel; after which the village blacksmith is heard and which the vinage blackshift is heard and seen by the ringing anvils and flaming forge, and the number finishes in a grand burst of harmony by the large band.

This step towards presenting band or orchestral music with stage effects is new,

This step towards presenting band or orchestral music with stage effects is new, and doubtless will prove very interesting. Considerable time and money are used by the band in providing such interesting programmes, and the subscribers should encourage them in their efforts by seeing that the seats they are entitled to are occupied by either themselves or friends, for, as far as the band is concerned, the money part is assured; but it is the attendance that spurs them on to renewed and greater efforts. Nearly eight years ago the panorama, "The Mirror of Ireland," was shown in this city with satisfaction to the public Two comedians then accompanied it with Irish song, dance and story. The pano-rama has been enlarged and improved, and a comedy has been written about it that keeps pace with the changing scenery the panorama presents, and illustrates the characteristic traits of Irish character and the customs and manners of the people o the different parts of the Emerald Isle.

The new arrangement is indorsed by press extracts at hand as a great improvement and as making the entertainment still more entertaining. The panorama will be unrolled at the Opera House, and the "Ideal Comedy Company" will appear in conjunction with it in the comedy "Kitty from Cork" Monday and Tuesday nights next. Seats will be on sale to-morrow attentions.

"To our already formidable list of poisons," says the London Hospital, "may be added as a source of occasional danger, the fragrant nutmeg. It is not likely that adults will ever die of eating nutmegs; but the inquisitive fingers of children find their way to the spice box, and thence convey nany things to their curious palates. At least one fatal case has occurred, where a boy of eight, having eaten two nutmegs, fell into a comatose condition and died

within twelve hours. The symptoms were similar to those of opium poisoning." The reason Lot's wife was turned to salt was evidently because she was too fresh. Somerrille Journal.

Alleged Duel Between a Texas and Mississippi Congressman. WASHINGTON, January 24th.-It is rumored this evening that Congressman Crain of Texas and Curry of Mississippi have gone out of town to fight a duel. The report seems to have grown out of the fact that they had an altercation this afternoon at a hotel near the Capito resulting only in a momentary exchange of blows, which seems to have been followed by mutual apo'ogies and adjustment of the diffi-

CONGRESSIONAL PROCEEDINGS.

In the Senate. Washington, January 24th.—Immediately atter the introduction of petitions in the Senate to-day a message was received from the House announcing the death of Representative Burnes of Missouri, and the adoption of a resolution providing a joint committee to accompany the remains to their place of burial.

On motion of Cockrell a resolution was adopted concurring in the House resolution, and providing for a committee of three. Senators Vest, Coke and Teller were named as the committee.

On motion of Vest, and, as a mark of respect for the dead, the Senate adjourn d. In the House.

Washington, January 24th —When the House convened this moraing there was one seat draped in mourning and cove ed with flowers. It was the seat of the late James N. The blind Chaplain of the House offered a feeling prayer in the deceased's memory.

Dockery of Missouri presented resolutions expressing the sorrow of the House at the death of the member and providing for the appointment of a committee of members to escort the remains to their place of burial. The resolutions were adopted and the House adjourned.

The committee in charge of the remains departed at 7:30 this evening for St. Joseph, Mo., where the interment will be made.

The House Committee accompanying Representative Burnes' remains is composed of Stone, Mansur, Wade, Bynum, Sayres, Henderson of Iowa and Perkins.

Miner of Missouri explained the difficulties that women experience in attempting to secure suffrage. Legislation in favor of and against woman suftrage in Washington Territory was the subject of Mrs. A. Scott Duniway's remarks, and when she had put in her plea for an amendment to the Constitution she was succeeded by Mrs. Alice Stone Blackwell of Boston, who told the story of how the women of Boston saved to that city the public schools.

THE BURNING QUESTION.

High Officials Express Themselves Regarding the Samoan Affair.

Washington, January 24th.—Assistant Secretary Rives read the dispatches about Samoan affairs carefully this afternoon, and remarked, with a smile, "They seem to be hurling defiance in our teeth, don't they?" When asked if he had not some further comment to make on the subject, he said he had not. He subsequently intimated, however, that there were important differences in the statements made by the North German Gazette and the President's message to Congress of the 16th inst. in regard to the treaty rights of Germany, Great Britain and the United States in the Samoan matter. He declined to point out the discrepancies, but repeated that the position of our Government on the question, as stated by the Gazette, differed from our position as defined by the President.

Rives would say no more, but it is understood that he referred particularly to that passage in the message where the President says: "Acting with the restraints which our Constitution and laws have placed upon the Executive power, I garding the Samoan Affair.

with the restraints which our Constitution and laws have placed upon the Executive power, I have insisted that the autonomy and independence of Samoa should be scrupulously preserved according to the treaties made with Samoa by the Powers named—Germany, Great Britain and the United States—and their agreement and understanding with each other. I have protested against every act apparently tending in the opposite direction, and during the existence of interna disturbance one or more vessels have been kept in Samoan waters to protect American citizens and property."

The Agent is Joseph A. Moore, a leading citizen of Indianapolis, 45 years old, who has hitherto occupied a high position in that community. His position and reputation and his energy and ability all made it apparently impossible that he could betray so great a trust. This is the only loss through a financial correspondent that the company has ever experienced in the forty-three years of its career.

Secretary Whitney declined to be interviewed. The policy of the Government, he said, was fixed, and anything which might be said in regard to it must come from the State Department. The Navy Department had no jurisdiction over the matter except of an excentive character. Senator Edmunds, when made acquainted with the tenor of the utterances of the Berlin Gazette, said: "I suppose if bismarek was to expect the site of the policy to do so, but I also suppose that an expression of such opinion will not serve to keep the American people from carrying out any policy they may adopt as desirable or necessary.
